- FINISHED WITH A UNIQUE COATING SYSTEM THAT PROTECTS AGAINST FUNGI AND ROT.
- COATING IS COVERED BY A 7 YEAR WARRANTY (SEE WEBSITE FOR DETAILS).

ACOUSTIC ENDURAPANEL®

Modern homes typically combine open plan living areas with timber and tiled floors, causing unwanted noise travel. Acoustic Endurapanel® solves this common problem by way of excellent sound absorption properties, with the added benefit of creating a beautiful feature in any home.

Sound travels through the perforations in the panel and into the insulation, absorbing unwanted noise and echo. Acoustic Endurapanel® is also perfect for alfresco areas, balcony ceilings, restaurants, and shop fitouts.

Natural Hoop

Blackbutt

Spotted Gum

Jarrah

Walnut

Ebony
